## RECHARGEABLE MAGNETIC UNDERHOOD WORK LIGHT

### USER MANUAL

Thank you for purchasing EverBrite products, please read this manual carefully before use, and keep it for future reference!

### PRODUCT PARAMETER

Power	Lithium 2200mAh	Max.Brightness	1000LM
Weight	310G	Max.Running time	15H
Size	1400*40*32MM	Max. beam distance	40M

### OPERATING INSTRUCTIONS

- **4 Modes:** High-Medium-Low-OFF.
- **Mode Switch:** Short press the switch button to turn ON. Then short press to cycle through High-Medium-Low-OFF.

### INSTRUCTIONS FOR USE

The compact and foldable design can be easily placed in the car, tool box or work place, taking up only a small space while providing up to 1000 lumens of bright area lighting. Suitable for auto repair, work, outdoor, etc.

1. The silicone-encased light band is flexible and bendable, and it can be adjusted at will to direct light precisely where needed.
2. Powerful magnet: can be firmly adsorbed on the iron surface, free your hands and providing you with another lighting option for night lighting.
3. Hooks: As an underhood light by using the hooks.
4. Adjustable strap: can adjust the length of the work light according to needs, or a wearable sash light with the adjustable strap and buckle system.

## INSTRUCTION ON HEADLAMP CHARGING

- Both sides of the work light can be charged. Charge your work light with supplied cable or other type-C charging cable. Connect it to any 5V USB port such as power adapter, power bank, computer USB port etc.
- Charging indicator: When charging, the charging indicator lights up red, and when fully charged it lights up green.
- Charging Time: around 2.5 hours.

**Note:** Do not operate the work light while charging. The work light does not work when plugged into charge.

## WARNING

- When using it for the first time, please fully charge it first.
- If it is not used for a long time, it is recommended to charge it once every 3 months for the maintenance of the built-in lithium battery.
- DO NOT allow throw and hit when the light is in use to prevent damage to the work light and battery.
- DO NOT disassemble the work light at will. If any problem, please consult the after-sales service.
- DO NOT use the work light light to directly illuminate the eyes, which will cause people's eyes to blur or even short-term blindness.
- Do not dispose of batteries in fire. Batteries may explode or leak. Please dispose of batteries properly.
- DO NOT mix alkaline, standard(carbon-zinc), or rechargeable (nickel-cadmium) batteries.
- The work light is NOT TOY - not recommended for use by children without supervision. Keep out of reach of children.

## ENVIRONMENTAL PROTECTION

Do not dispose with domestic waste. Use special collection points for sorted waste. Contact local authorities for information about collection points. If the electronic devices would be disposed on landfill, dangerous substances may reach groundwater and subsequently food chain, where it could affect human health.
