Press the Switch Button (C) to cycle through 3 modes: **HIGH - MEDIUM - LOW - POWER OFF.**

NOTE: Do not operate the work light while charging. The work light does not work when plugged into charge.

USAGE AND MAINTENANCE

- Battery comes 50-80% charged so they can be used right away, however it is recommended that you fully charge the battery when received.
- Once fully charged, be sure to disconnect the USB charging cable.
- Recharge a stored battery every three months to maintain optimum performance of the battery.
- Do NOT attempt to open battery.
- Do not operate the light in explosion hazardous areas or in aggressive environments.

WARNING

1. The work light projects a very bright beam of light and can cause eye damage to the user or others. Avoid shining the light directly into anyone's eyes.
2. DO NOT use the charge-out feature in excess of its output rating. Overload outputs above rating may result in a risk of fire or injury to persons.
3. Always keep the work light away from any flammable surface or materials.
4. DO NOT continue using or attempt to charge product if it 1) has been punctured or damaged, 2) exhibits any abnormal characteristics such as excessive heating or swelling, or 3) emits an odor.
5. Unplug from outlet when the light is not charged and before servicing or cleaning. This will reduce the risk of electric shock.
6. Do not use a pressure washer to clean this product.
7. The work light is NOT TOY - not recommended for use by children without supervision. Keep out of reach of children.
8. Never dispose of the lithium battery in fire, as they may leak and explode.
9. Dispose according to local, state, or federal regulations.
10. Any changes or modifications to this work light not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

ENVIRONMENTAL PROTECTION

Do not dispose with domestic waste. Use special collection points for sorted waste. Contact local authorities for information about collection points. If the electronic devices would be disposed on landfill, dangerous substances may reach groundwater and subsequently food chain, where it could affect human health.
